Please note this is an ESTIMATE only. All calculations are based on the preliminary information that has been provided to Empower. Your savings are based on the number of days in the bill used for your energy quote. These savings cannot be quoted accurately until appropriate checks and assessments have been undertaken. Actual savings will be based on your varying consumption and operation of the energy cost saving devices you install. Monitoring and analysis of actual savings can be undertaken on request.

**We're on a mission. Would you like to join us?**

Empower provides free assessments onsite, and can make an independent recommendation of which products or services may benefit you most. If you would like us to arrange an appointment for a free assessment at your workplace to investigate what Empower can do to help you reduce your energy consumption, please return this form to Empower ([sales@smarterenergysavings.com.au](mailto:sales@smarterenergysavings.com.au)) or to your broker. If you have any questions, please do not hesitate to contact us.
