WHO IS BlueNRG?

We're a 100% Australian owned energy retailer helping businesses like yours save on their energy bills. We not only keep our prices low, we help you reduce all your energy costs and optimise your energy usage.

Customer Service

73% of our customers have said they're extremely satisfied. That's 24% better than our nearest competitor.

Energy Solutions Provider

We embark on your energy reduction journey by commencing with a very competitive energy price and then work with you in partnership to optimize & reduce your energy costs. That's our promise and point of difference in the market.

Customer Acknowledgment

1. You agree that you are duly authorised to give explicit informed consent to this contract on behalf of the company listed above, and that you are entering into this contract subject to Blue NRG's market retail contract terms and conditions as outlined on our website www.bluenrg.com.au.
2. You agree that you will be invoiced monthly, and that invoices will be sent to the email address provided. Postal invoices attract a \$5.00 administration fee per invoice.
3. BlueNRG payment terms are 14 days from bill issue date.
4. You acknowledge that your rates may change in line with BlueNRG's market terms and conditions, and may be varied to account for changes in CPI and network tariffs charged to Blue NRG by your distributor. Price variations occur once a year, and reflect any variation in pass through costs from network distributors and to reflect any changes the Australian Bureau of Statistics' Consumer Price Index. In New South Wales and South Australia, we may vary prices from 1 July of each year. In Victoria, we may vary prices from 1 January each year.
5. You may be subject to demand tariffs charged by your distributor. A demand tariff is a charge that applies for the maximum electricity supplied to your premises for each day of the billing period, regardless of how much electricity you consume. If applicable, this will be charged in dollars per kilowatt of maximum demand per month.
6. If you are in the United Energy distribution area, you may be subject to a Summer Demand tariff if you consume more than 20MWh per year at your premises. If applicable, this tariff is calculated by identifying the highest half hourly usage between 2.00–7.00pm Monday to Friday for the period between 1 November to 31 March.
7. Blue NRG offers new solar installation customers a feed in tariff according to regulated rates: 5.0c/Kwh in Victoria, 6.8c/Kwh in South Australia and 5.2c/Kwh in NSW.
8. Early termination of this contract before the end of the minimum supply period may incur damages or losses as estimated by us. This includes our reasonable costs, loss and expenses arising from the breach of the contract, including (but not limited to) the gross margin forgone due to the early termination of this contract.
